

RIPE

Numbered Work Items Update

Community involvement

- Lack of community involvement still an issue
- Little bursts of activity
- Long periods of silence
- No consensus

Way forward

- Only 3 options:
 - Detailed community discussion and consensus - rarely happens
 - Treat some as bugs, small changes, let NCC fix them
 - Just close them

Agreement to let NCC fix

- For small issues (bugs)...
- If community doesn't discuss:
 - Chairs will suggest on mailing list to pass it to NCC 'to fix'
 - If no significant objections raised, chairs will ask NCC to fix
 - If significant objections raised, but still no discussion, chairs will close NWI

NWI-2 History of deleted objects

- NCC legal team presented at RIPE 84
- They need requirements for historical data
- Any volunteers to draft this?

NWI-4 Assigning a whole allocation

- Possible new status value
- NCC working on impact analysis
- DB analysis done, Registry Services still has some concerns

NWI-10 Country attribute

- Ongoing by NCC - advanced stage

NWI-12 NWI-13

- NRTM v4, NCC working on a server implementation
- Geofeed to be discussed in separate presentation

NWI-14 Extending mnt-ref

- NCC working on implementation plan

NWI-16 IPAM

- Recommendation by DB Task Force
- Shane and I discussed on mailing list recently
- Asked for input from operators who use database for their IPAM
- No response
- ???

NWI-15 NWI-17 NWI-18

- 15,17 - Task Force Recommendations not yet considered
- 18 - awaiting outcome of policy proposal 2022-01
