Membership Association of IXPs

Events

- Two Membership events per year hosted by our Members
- Workshops & hackathons
- Online/ virtual workshops

Services

- Reports
- Newsletters
- Mailing list
- IXP Benchmarking

Tools & Community Projects

- Internet eXchange Point Database - IXPDB
- Peering Toolbox
- Fellowship & Mentor-IX
- Route Server Large BGP Communities list
- A new IXP Film

TOP-IX Update

- Celebrating 20 years of activity!
- New game on interconnection: <https://flows.top-ix.org/en/>
- New IXP announced in Genoa (in cooperation with other partners): <https://www.ge-dix.net/>

Espanix Update

- Connected their fifth PoP in Madrid with Data4.

InterLAN Update

- 130 ASNs connected, daily peak traffic 400 Gbps
- Partnership Agreement with DE-CIX, enabling Romanian Networks and Enterprises to access the world's largest neutral interconnection ecosystem
- Commitment to support community projects: Euro-IX Fellowship, IXPDB, IXP Manager, PeeringDB, Global NOG Alliance

BNIX & LU-CIX Update

LU-CIX

- Are happy to announce the go-live of their interconnection.
- This allows participants/members of the two IX's to add remote peering on the partner exchange for a small fee
- Reducing latency times between the two countries and ensuring greater security for cross-border traffic flows.

LINX Update

LINX Developments

- LON1 now at 6Tbps+ peak
- Total LINX Traffic 7Tbps +
- New LINX London PoP at Iron Mountain Data Centers LON-1

LINX International Developments

- LINX Launches IXP in Nairobi, Kenya
- Creating a regional hub in East Africa

LINX Update

Cont..LINX International Developments

- Partnership with Kenyan IXAfrica
 - LINX and NAPAFrica announce strategic collaboration
 - Continued strong growth at LINX JEDIX (317 Gbps)

LINX Service developments

- New Analytics features in IX-API Collaboration between LINX, Ams-IX & DE-CIX

France-IX Update

- France-IX merged with Rezipole in 2021. LyonIX is now France-IX Lyon/AURA.
- 400G ports for members available NOW
- moving backbone from N x 100G transponders to 400G-ZR (ongoing)
- more than 100 100G ports in Paris

France-IX Update

- Traffic peaks : Paris 1.85 Tbps, Lyon 64 Gbps, Marseille 270 Gbps
- Members from TOUIX moved to France-IX Toulouse
- France-IX Lille open

DE-CIX Update

- DE-CIX Leipzig launched Oct. 13th, RFS November 15th, available at Datacenter Leipzig - envia TEL GmbH & Colocation Leipzig Mitte (ZNK) - PÿUR Business
- DE-CIX Frankfurt – 800 G available now to further increase efficiency in platform operations and network costs.

DE-CIX Frankfurt
K-API: The
nd Statist
pecificatio

DE-CIX Update

- DE-CIX celebrates the 10th birthday of UAE-IX powered by DE-CIX in November in Dubai with famous peering cruise. (pls. see attachment)
- DE-CIX honored recently as Best Internet Exchange Operator the the Carrier Awards for the 7th time

IXPDB Status

IXP{DB} Road Map

Structured Data

Enables users:

- Visualise the data via Maps and Charts
- Dynamic filters
- Downloadable data sets in structured formats

Building Data Pipelines

We are able to:

- Collect and organise the data
- Encourage IXPs to adopt to the schema
- Data validation – coming soon!

Next Steps

- Finalise traffic API and build traffic trend datasets
- Enable the comparison tool
- Develop a pricing API
- Identify useful 3rd party data

Contact secretariat@ix-f.net if you'd like to find out more or sponsor us!
